

K-Love is a tremendous asset to the communities it serves. It is one of the few places to get positive, upbeat messages. Society today is bombarded with negative and immoral messages everywhere we look or listen. Our children cannot even listen to the radio anymore without us filtering the message. That is not the case with K-Love; I never need to worry about what is being said or advertised on that station. I listen to K-Love on a daily basis and it helps provide me with a positive outlook for the day. To take away K-Love from the communities where it is broadcast would leave a void in the lives of many countrywide. Please leave K-Love, which is one of the only decent media outlets, alone.
